### EXPERIENCE

#### Full Stack Developer [ 365 AI Tech, Faridabad, Haryana, India (Remote) ]

Nov 24 – Present

- Developed and maintained full-stack applications using MERN stack and Next.js.
- Integrated third-party APIs, including Google login, automatic video posting to Facebook/YouTube, and Hume AI for emotion analysis, Deepgram for text to Audio and Audio to text generation. GPT api for story and image prompt generation.
- Worked with **no-code tools like Vapi** to implement voice-based automation and AI-driven communication workflows.
- Automated workflows using **n8n, Make.com, and Airtable integrations**, streamlining complex processes with minimal effort.
- Utilized WebRTC, Socket.io, and FFmpeg for real-time features and media handling.
- Designed responsive **UI/UX** using **Material UI** and **ShadCN UI**, ensuring seamless user experience across all devices.

#### Full Stack Developer Intern [ 365 AI Tech, Faridabad, Haryana, India (Remote) ]

Apr 24 - Nov 24

- Built robust backend APIs with REST and enhanced communication mechanisms.
- Collaborated in full-stack development, focusing on Next.js and Mongoose for database management.
- Designed and implemented video generation workflows with Shotstack API and text-to-image generation using MidJourney, GoAPI, and Leonardo.

### SKILLS

- **Frontend Development:** Next.js, Tailwind CSS, Material UI, ShadCN UI, Framer Motion.
- **Backend Development:** Node.js, Express.js, REST APIs, Prisma, PostgreSQL, MongoDB.
- **Automation Tools:** n8n, Zapier, Make.com, Airtable Integration.
- **APIs & AI Integration:** Hume AI, Shotstack API, Deepgram, ChatGPT, MidJourney.
- **Real-Time Communication:** Socket.io, WebRTC, FFmpeg.
- **Soft Skills:** Leadership, Project Management, Communication, Problem Solving.

### PROJECTS

#### Gardenia - Social Media Platform for Gardening Tips and Advice

[Live Link](#)

[Github Link](#)

[View Doc](#)

**Overview:** Gardenia is a feature-rich, full-stack platform built for gardening enthusiasts and professionals to share insights, discover expert advice, and engage with a like-minded community. It offers premium gardening content, social interaction tools, and a seamless user experience, making it the go-to destination for plant lovers.

#### Features:

1. **Community Engagement:** Users can post gardening tips, upvote helpful content, comment, and follow others to build a thriving gardening network..
2. **Premium Content Access:** Verified users and experts can share exclusive gardening guides, with payments integrated via Stripe.
3. **Personalized Experience:** Infinite scrolling news feed, category-based content discovery, and real-time notifications ensure a highly engaging user experience.

**Tech used:** Next.js, Tailwind CSS, Redux Toolkit, Framer Motion, Express.js,, Mongoose, Stripe, Cloudinary, JWT, Quill, Chart.js.

#### Shop Ease - Ecommerce Platform

[Live Link](#)

[Github Link](#)

[View Doc](#)

**Overview:** Shop Ease is a user-centric e-commerce platform designed to simplify online shopping with advanced tools for vendors, seamless browsing for customers, and efficient controls for administrators.

#### Features:

1. **Enhanced Shopping Experience:** Advanced product filtering, infinite scrolling, and a responsive design with dark and light modes ensure a personalised and intuitive shopping journey.
2. **Powerful Vendor Tools:** Vendors can efficiently manage their shops and inventories with robust features tailored to their needs.
3. **Comprehensive Admin Controls:** Administrators can oversee platform activities, manage users, and ensure security effortlessly for smooth platform operations.

**Tech used:** Next.js, Tailwind CSS, Node.js, Express.js, Prisma ORM, PostgreSQL, Stripe, and Cloudinary.
